

Koustabh Dawn

Software Engineer | B.Tech CSE (AI & ML)

Kolkata,India

+91-6290233365

koustabhdawn@gmail.com

https://www.linkedin.com/in/koustabh-dawn

Skills

Programming

Python, C++, Java, SQL, JavaScript, HTML/CSS

Frameworks

React.js, Node.js, TensorFlow, PyTorch, Django

Core Areas

Machine Learning, Deep Learning, Generative AI, Computer Vision, Data Structures and Algorithms (DSA), Object-Oriented Programming (OOPs)

Tools

Git, VS Code, Jupyter Notebook, Docker

Platforms

Linux, Windows

Certifications

Oracle Certified Professional - Oracle Cloud Infrastructure (OCI) Generative AI, 2025

Oracle

October 30th , 2025

Deloitte Australia - Data Analytics Job Simulation

Deloitte Australia

June 23rd , 2025

<https://shorturl.at/wNdXJ>

Enthusiastic and detail-oriented Computer Science graduate (AI & ML) with a strong foundation in software development, cloud computing, and machine learning. Skilled in Python, Java, C++, and full-stack web development using Django and JavaScript frameworks. Certified Oracle Cloud Infrastructure (OCI) Generative AI Professional (2025), demonstrating familiarity with emerging technologies and cloud platforms. Known for quick learning, strong analytical ability, and a proactive approach to teamwork. Eager to contribute to innovative software solutions and grow in a dynamic, technology-driven organization.

Experience

Saiket Systems

Aug , 2025 - Sep , 2025

Software Development Intern

<https://saiket.in/>

- Contributed to the software development lifecycle, applying strong analytical thinking and problem-solving skills to meet project requirements.
- Collaborated with the development team on data modeling tasks and system design, demonstrating keen attention to detail.
- Gained practical experience in a professional software development environment, consistently receiving positive feedback for dedication and eagerness to learn new technologies.

Ardent Computech Pvt. Ltd.

Jan , 2024 - Mar , 2024

Industrial Trainee

<https://www.ardentcollaborations.com>

- Developed a full-stack Blood Bank Management System using Django, significantly improving blood donation tracking and inventory management.
- Designed a responsive and interactive user interface with HTML, CSS, JavaScript, and Bootstrap, enhancing both donor and administrator experience.
- Implemented secure user authentication and integrated real-time database updates for efficient and reliable data management.

Education

Future Institute of Technology

September , 2021 - July , 2025

CGPA : 8.33

B.Tech (CSE - AI & ML)

Projects

Real-Time Emotion Detection System

Built a real-time facial emotion detection application using OpenCV and a pre-trained FER-based emotion recognition model.

<https://github.com/nerdyKou/Real-Time-Emotion-Detection-.git>

- Implemented face detection using Haar Cascade Classifier.
- Integrated a pre-trained deep learning emotion model (.h5) for classifying emotions (Happy, Sad, Angry, Neutral, etc.).
- Added real-time webcam feed processing with bounding boxes and emotion labels.
- Tools: Python, OpenCV

Contact Book Web Application

Built a fully responsive Contact Book app using React with modern UI components.

<https://github.com/nerdyKou/Contact-Book-App.git>

- Implemented add, delete, and real-time search for contacts with validation.
- Designed reusable components, custom hooks, and clean modular architecture.
- Tools: React.js, CSS, Lucide Icons

Blood Bank Management System

Developed a full-stack Blood Bank Management System with role-based authentication for Admin and Users.

<https://github.com/nerdyKou/Blood-Bank-Management-System-.git>

- Implemented donor registration, blood group-wise inventory tracking, and blood request management.
- Enabled automatic inventory updates upon adding or editing donor records.
- Designed separate dashboards for Admin and Users with functionalities like approve/decline requests, donor list, and stock overview.
- Built with responsive UI and secure CRUD operations.
- Tools: Python, Django, HTML, CSS, JavaScript, Bootstrap
